

## CLAIMS

We claim:

- 1        1. A sticker/decal air freshener, comprising:  
2        a sticker/decal having a plastic sheet having a primary  
3 adhesive layer; and  
4        a release backing board;  
5        said sticker/decal having a scented material which  
6 dissipates into the surrounding air and freshens the air.
- 1        2. The sticker/decal air freshener system of claim 1, said  
2 sticker/decal having a paint layer on said plastic sheet such  
3 that that sticker/decal depicts a decorative item.
- 1        3. The sticker/decal air freshener system of claim 2,  
2 wherein the scent of said scented material matches the depicted  
3 decorative item.
- 1        4. The sticker/decal air freshener system of claim 2,  
2 wherein said paint layer contains a scented material acting as  
3 an air freshener.

1        5.    The sticker/decal air freshener system of claim 4,  
2 wherein said the paint in said paint layer contains a scented  
3 gel.

1        6.    The sticker/decal air freshener system of claim 4,  
2 wherein the paint in said paint layer contains liquid potpourri.

1        7.    The sticker/decal/decal air freshener system of claim  
2 4, said air freshener system including a tear-away or otherwise  
3 sealed bag so as to prevent the dissipation of the scent during  
4 storage.

1        8.    The sticker/decal air freshener system of claim 2,  
2 further comprising a scented foam material adhered to at least a  
3 portion of said paint layer of said sticker/decal, said foam  
4 material having a refreshable scent material absorbed therein.

1        9.    The sticker/decal air freshener of claim 8, wherein  
2 said scented foam material, upon scent dissipation, is refreshed  
3 with a spray scent material.

1        10.   The sticker/decal air freshener system of claim 8,  
2 said air freshener system including a tear-away or otherwise  
3 sealed bag so as to prevent the dissipation of the scent during  
4 storage.

1        11.    The sticker/decal air freshener system of claim 2,  
2 further comprising a scented tape segment having an adhesive  
3 layer removably attached to said paint layer.

1        12.    The sticker/decal air freshener system of claim 11,  
2 said scented tape segment having a plastic mesh outer layer  
3 having scented gel within the interstices of the plastic mesh  
4 layer.

1        13.    The sticker/decal air freshener system of claim 12,  
2 said scented tape segment, upon dissipation of the scent  
3 thereon, being removable and replaceable with a fresh scented  
4 tape segment.

1        14.    The sticker/decal air freshener system of claim 13,  
2 said scented tape segment being shaped to conform with said  
3 sticker/decal.

1        15.    A method of making a sticker/decal air freshener  
2 system comprising the steps of:

3        . placing at least one sticker/decal on a release board;

4        painting said sticker/decal with a decorative design;

5       removably   adhering   a   foam   strip   to   said   painted  
6 sticker/decal; and

7       spraying   said   foam   strip   with   an   air   freshening   liquid  
8 spray material.

1       16.   The method of making a sticker/decal air freshener  
2 system of claim 15, further comprising the step of sealing said  
3 scent sprayed sticker/decal as mounted on said release board in  
4 a tear-away or other bag or wrapper.

1       17.   The method of making a sticker/decal air freshener  
2 system of claim 15, further comprising the step of providing a  
3 spray scent material for refreshing said scented foam strip upon  
4 the dissipation of said scent material on said foam strip.

1       18.   A method of making a sticker/decal air freshener  
2 system comprising the steps of:

3       placing at least one sticker/decal on a release board;

4       painting said sticker/decal with a decorative design;

5       placing a transparent, removably adhering, replaceable  
6 scented tape segment on the painted surface of said  
7 sticker/decal.

1        19.    The method of claim 18, wherein said replaceable  
2        scented tape segment includes a layer of transparent plastic  
3        mesh material having a scented gel located in its interstices.

1        20.    The method of claim 19, wherein said tape segment is  
2        removed and replaced upon dissipation of the scent of said  
3        scented gel.
